

# RADIANT

ARCHITECTURAL LIGHTING

Radiant Architectural Lighting provides innovative lighting for projects around the world.

For more information about any of the products below, or any other solutions from our extensive range, please contact our team who will be happy to help, or arrange a virtual meeting to discuss your project.

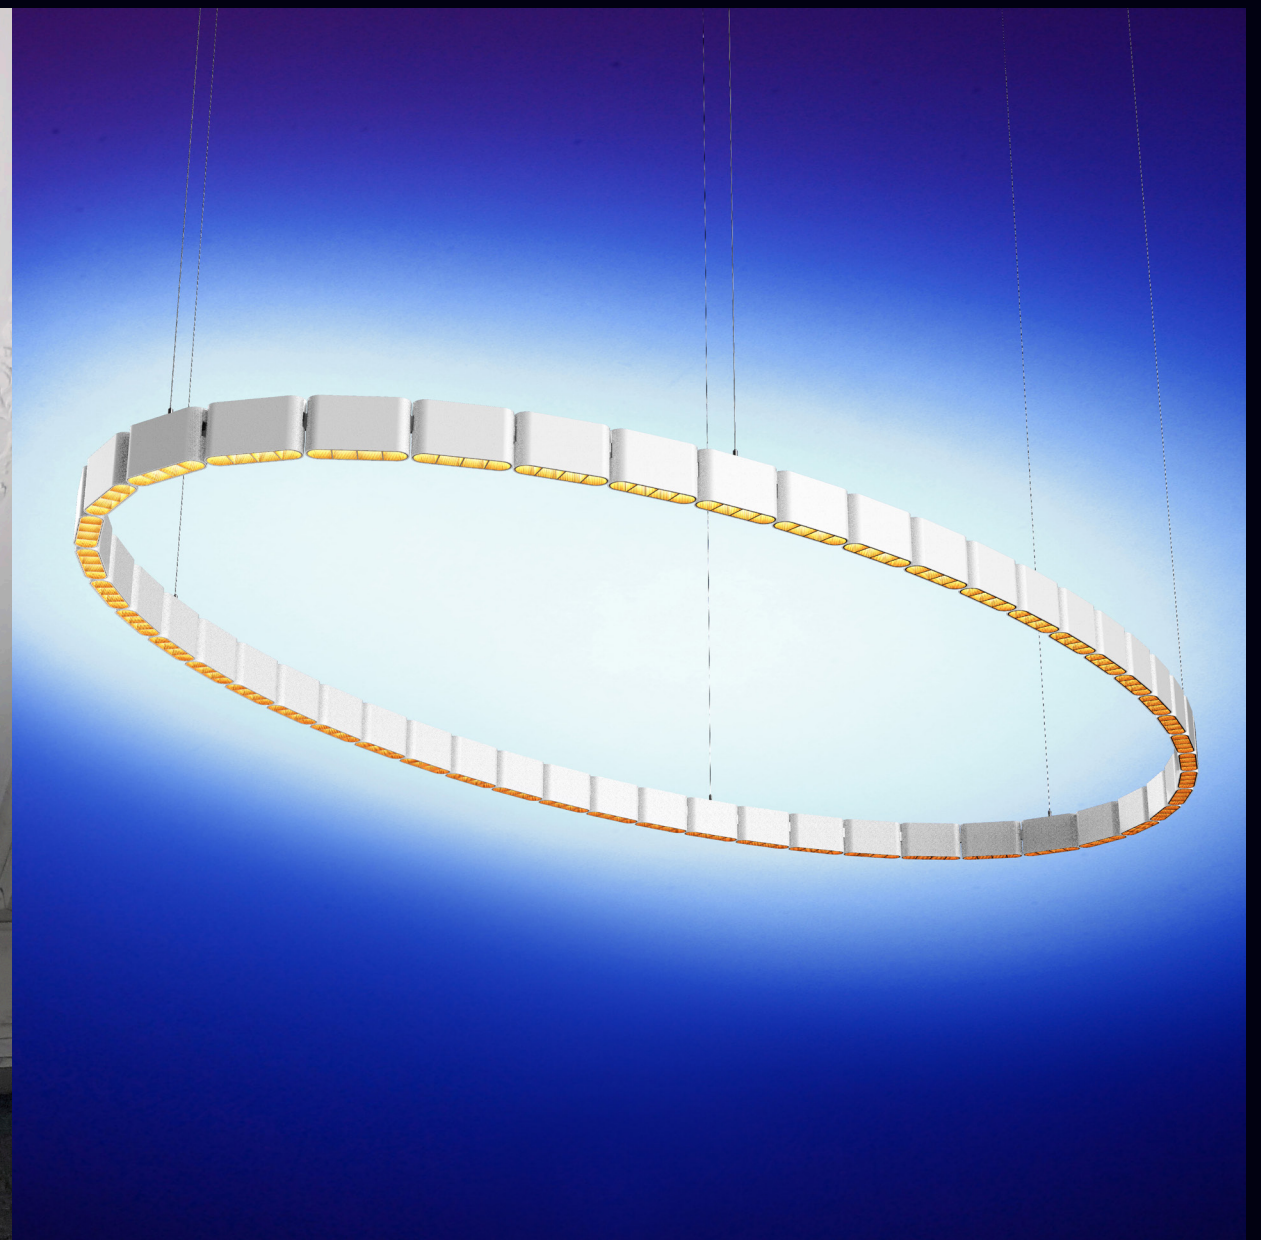

33 Wigmore Street, London  
Lighting design by Syntax

Radiant's Centura 40 150 System IP20 was specified by Syntax Lighting for the refurbishment of 33 Wigmore Street. The building's Edwardian Baroque style, with touches of art nouveau, is complemented by the elegant elliptical form of the pendants. The pendants provide an ambient up lighting effect, as well as having optical light engines that produce a highly-controlled down lighting effect. The tuneable-white uplight effect can be controlled independantly of the dimmable fixed-white down-light effect. Up to 7,000 Lumens per mtr.
