

RADIANT

ARCHITECTURAL LIGHTING

Radiant Architectural Lighting provides innovative lighting for projects around the world.

For more information about any of the products below, or any other solutions from our extensive range, please contact our team who will be happy to help, or arrange a virtual meeting to discuss your project.

Arnhem, Netherlands

Historic former Post Office building, Arnhem, Holland.
Lighting design and mast design by Atelier LEK
Project photography by Atelier LEK

D100 IP66 Spotlight
With Gaggione lens system and custom bracketry
Up to 1,000 Lumens per spotlight

Custom versions of the D100 IP66 spotlight system were created in collaboration with Atelier Lek for the renovation project for the city of Arnhem in Holland.

The spotlights incorporate custom brackets allowing them to be mounted into the 12 mtr high masts, which were designed and commissioned by Atelier Lek specifically for this project. The brackets allow the spotlights to be rotated and aimed, whilst maintaining a compact form factor.

Radiant provided both RGBW and white LED versions of the D 100 spotlights with a variety of beam angles to provide highly controlled accent illumination of the historic former Post Office building and other architectural highlights around the city centre.
